English

Urdu

SKILLS

Programming Languages: HTML, CSS, JavaScript, React, Node.js, MongoDB

Web Development Tools: Git, Visual Studio Code

Software Proficiency: Microsoft Word MongoDB Compass, Postman

Soft Skills: Problem-solving, Time management, Quick learner

Typing Speed: 60+ WPM

INTERESTS

Artificial Intelligence: Keen interest in AI technologies and how they shape the future.

PROFILE

" I'm a passionate full-stack developer with a keen eye for design and a dedication to creating responsive, user-friendly web applications. I specialize in translating complex ideas into visually appealing and intuitive interfaces while building robust back-end functionality. With expertise in HTML, CSS, JavaScript, React, Node.js, and MongoDB, I strive to bridge the gap between design and functionality, ensuring seamless user experiences across all devices. Whether it's crafting modern applications or refining existing ones, I take pride in delivering high-quality, efficient code that brings digital visions to life. "

EDUCATION HISTORY

Bachelor of Computer Science

UBIT - Umaer Basha Institute of Information Technology

F.S.C in Computer Science

Adamjee Govt. Science College

F.S.C. in Computer Science Percentage: 82.36%

2024

WORK EXPERIENCE

Self-Directed Projects: Developed multiple web applications using HTML, CSS, JavaScript, and React. Implemented dynamic front-end features and integrated back-end functionality with Node.js and MongoDB for enhanced user experience and data management.
